Time

“PRE-TRIP” REPORT:

Before operating this vehicle on a public road, the driver must:

- (1) Fully perform PennDOT’s pre-trip inspection process as outlined in the most recent version of its “Commercial Driver Manual” (pub. 223);
- (2) Review the most recent DVIR on file, if any; and,
- (3) Sign below to acknowledge that the driver has performed the requisite pre-trip inspection and reviewed the previous DVIR and is satisfied that the required repairs have been performed. If repairs are still needed for the safe operation of this vehicle, the vehicle must not be operated until such repairs are made.

DRIVER’S REVIEW

I acknowledge that all repairs identified on any previous DVIRs needed for the safe operation of this vehicle have been completed, and that my visual pre-trip inspection of the vehicle did not uncover any subsequent or additional defects.
