Digital Version of Township News is Now Available November Issue Focuses on Managing Personnel in the COVID-19 Era

Over the past eight months, townships have been challenged to provide services to residents while protecting the health and safety of their employees. This month's Township News explores creative and flexible approaches to managing personnel during this unprecedented time.

Other articles in this issue showcase PSATS' new and improved website (to be launched later this month!), explain how the Association is taking care of business during this unique year, highlight new member services in response to COVID, and explore recent court cases for which PSATS has filed amicus curiae briefs. Townships will also find a checklist to help them get organized for the new year.
