

PSATS CDL Program Drug and Alcohol Test Costs (as of 12/2020)

Members of the PSATS CDL Program have online access to a nation-wide directory of authorized testing sites, most of which are “in-network” and have the lowest costs. However, in order to maximize the number of authorized testing sites available for use by our members in all areas of the state, we added some testing sites which are considered “out-of-network” and are indicated with a “red” button on the listing of testing sites.

To find your nearest testing site, log in to your PSATS CDL Program account at Myescreen.com and follow the prompts under “Scheduling/Schedule an Event”. The drug and alcohol testing process at both in-network and out-of-network sites is exactly the same, only the costs are different as outlined in the chart below:

Icon	In or Out of Network	Drug Test Cost	Alcohol Test Cost
	In	\$60	\$41
	In	\$60	\$41
	In	\$60	\$41
	In	\$60	No alcohol testing.
	Out	\$70	\$51
	Out	\$70	\$51
